ARMADA

GAME COMPONENTS & PLAYER PIECES

OBJECTIVES

Primary: Sink the enemy

👑 King Flagship

Secondary (optional): Use pre-agreed upon, alternate win conditions. Ex: "Both King & Queen must be eliminated for a player to win".

NUMBER OF GAME PIECE PER PLAYER

- **(1) 12 X 24 Cloth board** with grid (A-L; 1-12)
- **(1) Fleet** (black or white) - named pieces
 - (1) King Flagship | (1) Queen Dreadnought
 - (2) Rook Destroyer | (2) Bishop Frigate
 - (2) Knight Submarine | (8) Pawn Corvette
- **Markers: Each player also gets the following**
 - (30) Red - Enemy hit/damage
 - (30) White - Targeting-miss shot
 - (20) Red pawns
 - (16) Piece ID markers-silhouettes
 - (3) Gray mine tokens
 - (1) Pass phase coin (steady shot/repair crew)
 - (1) Set of dice (damage counters)
 - (1) Blue shifting current token
- **Special Action cards**
 - Players draw 5 cards at the start of game.
 - Do not show the other player. Discard once used.

SETUP & PIECE DEPLOYMENT

- Players sit opposite, each placing a 12x12 board directly in front of them.
- Place the box upright directly in the middle of both players (serving as a wall) and obstructing the view of the opponent's board.
- Disseminate the game pieces to each player as instructed above.
- Players deploy game pieces within first 3 rows, following these zone rules.
 - Pawns to be placed in the 2nd and 3rd row closest to you.
 - Bishops to be placed on alternate color squares, can be in different rows.
 - Remaining *named* pieces placed within the first 2 rows closest to you.
- Place your shifting currents on the bottom half of your board.
 - Review "mechanics-expanded" to understand details of shifting currents.

CORE RULES: TARGETING; MOVEMENT; COMBAT RESOLUTION

Turn Structure

Each turn has 3 phases

1: Movement Phase

2: Targeting Action Passing Phase,

3: Combat Resolution Phase

MOVEMENT & PLAYER TURN

Each player follows this two-step process when it's their turn:

1: Move your named piece

- Identify the piece you want to move and advise your opponent which square you are moving to (do not reveal the piece name).
- If your opponent states your destination is occupied, follow *ramming* instructions noted on the following page.

2: Target or take an alternative action

Player to identify which action they want to take. **During turn 1 and 2, you can simply pass and not target or take alternative action.**

- 2A: Target - Follow the target pattern of the piece you just moved.
 - Announce the target square you are firing upon (within range).
 - If targeting after a steady shot on same piece review steady shot details for point damage details.
- 2B: Alternative Action - See “expanded mechanics” for details.
 - Reconnaissance (Recon)
 - Mine deployment
 - Pass phase ability - 2 alternatives (only available on turns 1 & 2)

COMBAT RESOLUTION- OPPONENT RESPONSE

Advise if your opponent's targeting phase resulted in a hit or a miss.

- If hit, apply +1 damage or +2 if opponent was using steady shot.
- You can avoid damage using designated special action cards.
- Remove ships from board once max damage reached.

MECHANICS EXPANDED

Learn More About

1: Ramming

2: Passing Targeting Abilities

- Steady Shot
- Repair Crew at Ready

3: Resupply

4: Reconnaissance

RAMMING

A ship moves into an enemy-occupied square occupied by both players take +1 damage on their pieces.

- The targeting ship, steps back 1 square in original direction. If the new square is occupied by an opponent piece, repeat.
- Both players must announce the piece name (ie. Queen), and continue announcing as it moves during the rest of the game.

PASS PHASE ABILITY: 2 ALTERNATIVES

1. **Steady Shot:** Abilities only applicable if used on same piece within consecutive turns. Can only be used 3 turns in a row.
 - Once that piece is activated and used during targeting, if you hit an opponent's piece = +2 damage to opponent.
2. **Repair Crew at the Ready:** Flip the coin-follow for results.
 - Flames = repair; remove 1 damage point from active piece.
 - Crosshair = no effect.

RESUPPLY

Resupply action can only be taken once you reach turn 3.

- Draw 1 Special Action Card and skip entire turn.

RECONNAISSANCE (RECON)

Used instead of targeting an opponent's ship.

- Player announces a square within range.
- Opponent reveals whether square is occupied or mined.
- Player does not state the name of piece. Occupied or not only.

MECHANICS EXPANDED

Learn More About

1: Shifting Currents

2: Command Orders

👑 King Flagship only

SHIFTING CURRENTS

Currents, covering a 3x3 square, are placed at the start of game. Actions are required by both players, follow guidelines below:

Player enters a shifting current (whether your own or opponent notifies you) - 3-steps to complete.

Step 1: The player who entered the current roles a die.

- Die # 1–3 → drift backward; Die # 4–6 → drift forward.
 - Pieces drift according to piece movement pattern.
- Player announces new location. If drifting into an occupied square → Follow *Ramming* Protocols.

Step 2: Engage in your targeting phase.

Attacks within zone → 50% chance of drift, you must roll a die.

- State the opponent's square you are targeting and roll a die.
 - Die # 1-3 = destination square hit- + damage if piece is there.
 - Die # 4-6 = missed shot.

Step 3: Adjust the shifting current. Shifting current owner only.

Roll die to determine new current movement.

- Die #: 1-3 = zone shifts 3 squares randomly
- Die # 4-6 = piece remains in place.

COMMAND ORDERS 👑 King Flagship only

Use King's move/attack to grant one ability below to ally (within 3 spaces of King). Cannot use with special action cards/pass phase.

- Full Speed Ahead → +1 movement range this turn to your ally.
- Concentrated Fire → +1 damage if attacking this turn to your ally.
- Defensive Maneuver → -1 damage until next turn.

MECHANICS EXPANDED

Learn More About

1: Mine Field

2: Piece Movement Guidelines

MINE FIELD

Mine tokens (grey markers) are used instead of targeting.

- Announce you are placing a mine instead of targeting.
 - Only 3 mines active at a time per player.
 - Only 1 mine per location. Mines remain hidden until triggered.
 - Mine placement: Directly behind the piece you moved (within the movement direction).
- If opponent enters a mine location (landing on the location) → mine detonates, +2 damage, mine removed from the board.
- If friendly pieces pass through mine location (does not land but their movement passes over) → mine announced +0 damage.
- Opponent targets mined location → mine detonates, removed.

PIECE MOVEMENT GUIDELINES

Each player receives a movement card. Movement replicated below for general review.

Piece	Movement Direction	Movement Range	Targeting Direction	Target Range	HP
♔ King Flagship	Any direction	Up to 2 spaces or until blocked	Any direction	Up to 2 spaces	5
♚ Queen Dreadnought	Any direction	Up to 4 spaces or until blocked	Any direction	Up to 4 spaces	4
♝ Bishop Frigate	Diagonal only	Up to 4 spaces or until blocked	Diagonal only	Up to 4 spaces	3
♞ Knight Submarine	L-shape (knight pattern)	3 spaces within L-shape pattern	Within L-shape (knight pattern)	Up to 3 spaces within L-shape pattern	3
♖ Rook Destroyer	Horizontal/Vertical	Up to 4 spaces or until blocked	Horizontal/Vertical	Up to 4 spaces	2
♟ Pawn Corvette	Forward	Up to 2 spaces or until blocked	Diagonal only	Up to 2 spaces	1
